EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Walter A. Rodgers on Wednesday January 18, 2006.

The application has been amended as follows: in claim 1 line 2 from the bottom, "approximately" has been deleted.

2. The following is an examiner's statement of reasons for allowance:

Claim 1 has been found to be allowable over the prior art of record because the prior art fails to teach or suggest an apparatus comprising a housing assembly being formed by a pair of interconnected cylindrical chambers which are in fluid communication and in overlapping relation along the length thereof, at least one thrust guide member in the form of an elongated bar or rod rigidly secured to at least one disc member, at least one flow weir being disposed adjacent the discharge side of the thrust guide, and the flow weir being spaced 1/4 to one inch from the thrust guide, in combination with the remaining limitations of the claim. Additionally, note the applicant remarks on page 4 where applicant indicates that this particular range is very critical to his invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
